EDUCATION

D.Y Patil College Of Engineering & Technology
B Tech In Computer Science & Engineering; CGPA: 8.32

Kolhapur, India
Nov 2022 - June 2026

Dada Patil College
XII (HSC); Percentage: 67.67

Karjat, India
June 2020 - March 2022

Mahatma Gandhi Vidhyalay
X (SSC); Percentage: 88.88

Karjat, India
March 2020

SKILLS SUMMARY

- Technical Skills:** C++, JavaScript, TypeScript, SQL, Python
- Frameworks:** ReactJs, Node.js, Express.js, Redux-Toolkit
- Web Technologies:** Tailwind CSS, HTML5, CSS3, REST API, React-Router, Bootstrap, MUI, AntD
- Database:** MongoDB, MySQL, MS SQL, Redis, Pinecone (Vector DB)
- AI & Automation:** LangChain, LangGraph, n8n, RAG, LLM, NLP, Generative AI, Prompt Engineering, AI Agent
- Platform & Cloud:** AWS (S3, Lambda, IAM), Docker, Firebase, Postman, Git, CICD, GitHub Actions

EXPERIENCE

The Business Legacy – Junior Web Developer Intern

January 2026 – Present

- Engineered responsive **UI components**, **interactive widgets**, and **frontend performance optimizations** across **two live production** client websites in **media** and **healthcare domains**.
- Collaborated within a structured **cross-functional developer team**, delivering frontend feature implementations and UI improvements across weekly sprint cycles.
- Conducting applied research on **LLM fine-tuning** and **agentic AI frameworks** to architect and deploy a production-grade conversational AI system for a **live healthcare platform**.

IIT Bombay EdTech – Educational Application Development | [Link](#)

June 2025 - October 2025

- Architected an AI-powered interview platform to **automate candidate screening and evaluation for hiring teams**.
- Developed an **AI-powered Interview Platform** using **React**, **Node.js**, **Express**, **MongoDB**, and **Redis**, enabling automated interview experiences.
- Integrated **LangChain**, **LangGraph**, and **n8n workflows** to implement **domain-specific AI interviews**, **LLM-based evaluation**, and **automated reports**.
- Deployed AI-driven scoring and structured feedback using **prompt engineering** to improve evaluation speed and consistency.
- Reduced manual **interview** effort and enabled faster candidate shortlisting through **streamlined assessments**.

PROJECTS

NyayaSathi - AI Powered Legal Document Assistant | [Link](#)

July 2025 - Present

- Legal documents such as **court notices**, **case files**, and **judgments** are difficult for common citizens to understand, creating dependency on **lawyers** for basic interpretation.
- Built an AI-powered **legal assistant** that explains court **documents**, **summarizes cases**, and provides **multilingual support** for citizens.
- Orchestrated a complete **RAG** system using **Node.js**, **Express**, **LangChain**, **LangGraph**, **Redis**, **Pinecone**, **AWS S3**, and **Google Gemini**.
- Integrated secure **PDF/DOCX ingestion via S3**, text extraction, chunking, embeddings, and high-accuracy **semantic search** with Pinecone.
- Delivered a **React** chat interface with **conversation memory**, document upload workflow, new chat management, and intelligent contextual replies.
- Improved document comprehension for non-technical users and reduced manual review effort.

Bicker's - Bike Search and Purchase Platform | [Link](#)

November 2024 - July 2025

- Built a dedicated **online bike marketplace** to solve **visibility** and **discovery** problems for local bike **sellers** and **buyers**.
- Constructed a **MERN**-based platform with advanced **search**, **filtering**, and comparison for **new and second-hand bikes**.
- Designed seller **dashboards** for managing **listings**, **pricing**, and **media uploads** (images and videos).
- Built secure **authentication** and role-based access for **buyers**, **sellers**, and **admins**.
- Enabled direct **buyer-seller** communication for inquiries and negotiations.
- Added **location-based** discovery and targeted **promotions** to improve seller reach and increase buyer conversions.

CERTIFICATES & ACHIEVEMENTS

Oracal Gen AI (Oracal) | [Certificate](#)

Full Stack Development (Alison) | [Certificate](#)

MYSQL (Intellipaat) | [Certificate](#)

Smart India Hackathon | 2nd position at the college level
